AREAS OF EXPERTISE

Smart Contract Development
Frontend Web Integration
DeFi - [Dex, Farming,
Stacking, Pool]
NFT - [NFT Card & Casino
Game]
DAO & ICO & 100
UX & UI Design
Hosting & Maintenance

Senior Frontend Developer

MAIN SKILLS

- *JSframework*

Reactjs, Nextjs, Vuejs, Typescript

- *PHP framework*

Larave/, CodeIgniter

- *Pythonframework*

Django

- *GraphQL, RestAPI*

- My work consisted of providing accurate solutions to different kinds of customers such as restaurants, e-commerce stores, schools, etc. Full-service web needs including, rebuilding or building for the first time websites, adding in finding the right hosting dependent upon client needs. Branding and logo creation as well as media needs including ad campaigns.
- Designed and developed software for various clients. Developed internet and intranet applications.
- Designed and developed user-friendly website, including optimized check-out page that increased user clicks, and subsequently customer purchases by 20%
- Fixed bugs from existing websites and implemented enhancements that significantly improved web functionality and speed
- Implemented server that expedited document generation and search functionality by 23%, earning commendation and award from upper management
- Designed processes for cleanup and performance improvement, that minimized downtime by 13%

EDUCATION

Norwegian University of
Science and Technology

2010 - 2015

Key skills

APP DEVELOPMENT SKILLS:

- Creating user friendly websites.
- Possessing extensive technical knowledge for Dapp and consulting experience on Various Blockchain Protocol.
- Giving accurate time estimates of any work to be done.
- Building large scale ecommerce websites.
- Superb debugging and problem-solving skills.
- In-depth understanding of modern web practices.
